

## CALL FOR EXPRESSIONS OF INTEREST

For the appointment of two new members to the Governing Board of the European Institute of Innovation and Technology (EIT)

The EIT is launching a Call for expressions of interest to appoint two new members to its Governing Board

#### Preamble

1. Pursuant to Regulation (EC) No 294/2008 (1) of the European Parliament and of the Council of 11 March 2008 establishing the European Institute of Innovation and Technology (EIT), as amended by Regulation (EU) No 1292/2013 (2) of the European Parliament and of the Council of 11 December 2013 (the 'EIT Regulation'), the EIT is launching a selection procedure to appoint four new members to the EIT Governing Board in the field of the knowledge triangle. The EIT is calling for expressions of interest from potential candidates.

## 1. The role of the European Institute of Innovation and Technology (EIT)

- 2. The EIT is a European Union (EU) body set up to boost innovation and entrepreneurship across Europe. The EIT contributes to the competitiveness of Europe, its sustainable economic growth and job creation by promoting and strengthening synergies and cooperation among businesses (including SMEs), education institutions and research organisations. The EIT creates favourable ecosystems for creative thought, to enable world-class innovation and entrepreneurship to thrive in Europe.
- 3. A key objective of the EIT is to act as a role model for promoting new systemic approaches to innovation. The direct involvement of stakeholders in all strategic, operational and financial aspects of the EIT is a cornerstone of this initiative.

4. The EIT currently provides grants to six Knowledge and Innovation Communities (KICs). The EIT's KICs are highly integrated networks bringing together partners from business (including SMEs), universities and research organisations, bridging the public and private sectors.

The EIT budget for 2014-2020 is approximately EUR 2.4 billion and the KICs leverage additional funding from the EU, as well as national and private sources. The EIT is the first European initiative to foster European innovation by fully integrating the three sides of the knowledge triangle (business, education and research) in the KICs. The aim of the EIT is to excel as a world-class institute of innovation, that inspires and drives change in European universities, research institutions and businesses, both new and established, ranging from SMEs to large multinationals. Conceived with a clear market-driven focus, the EIT acts as a catalyst for sustainable economic growth and job creation throughout the Union by generating new skills, products, services and business, responding to public demand and the needs of the knowledge economy.

## 2. The EIT Governing Board

- 5. The EIT's strategic management is coordinated by a Governing Board (the Board) consisting of recognised European leaders of innovation from the knowledge triangle. The Board is the EIT's principal decision-making body entrusted with providing the strategic leadership of the Institute. It is independent and autonomous in its decision-making and, in particular, is responsible for the selection, designation and evaluation of the KICs, as well as for monitoring and fostering their success.
- 6. The Board consists of 12 appointed members, appointed by the European Commission with a view to providing a balanced representation of members with experience in business, higher education, and research. In its appointments, the European Commission prioritises a balance between higher education, research, innovation and business environments across the EU as well as a gender and geographical balance, so as to ensure a fair representation of all areas of the EU.
- 7. The Board is assisted by an Executive Committee composed of three appointed members (elected by the Board from the Board's appointed members) and the Chairperson of the EIT Governing Board who have a four-year non-renewable mandate. Board members must act in the interests of the EIT, by safeguarding its goals and mission, identity, autonomy and coherence, in an independent and transparent way.
- 8. The Board meets on average four times a year at the EIT Headquarters in Budapest and an extraordinary meeting may be convened at the request of its Chairperson or its members. Usually, the ordinary meetings last one full day. Board members receive honoraria <sup>3</sup> for their attendance at meetings and are reimbursed for their travel costs. The meetings of the Board are prepared by the Executive Committee.
